

**Transfer of innovation and new methods for identifying
vocational competence within vocational education in the metal
and electrical sector as illustrated by two vocations**

COMMET

Leonardo da Vinci Programme
Project no. DE/07/LLP-LdV/TOI/147036

Methodology of the identification of the required competences

This project has been funded with support from the European Commission. This communication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

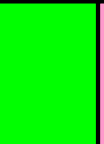

Competence

- „ all of the required knowledge, skills, and attitudes of a qualified worker by which he/she can effectively fulfill a work-related duty/task”

Philosophy of the method

- ***The employees in the certain job can most exactly identify the duties required in the job***
- ***The jobs can be identified the most efficiently by describing the duties which are performed by professional employees***

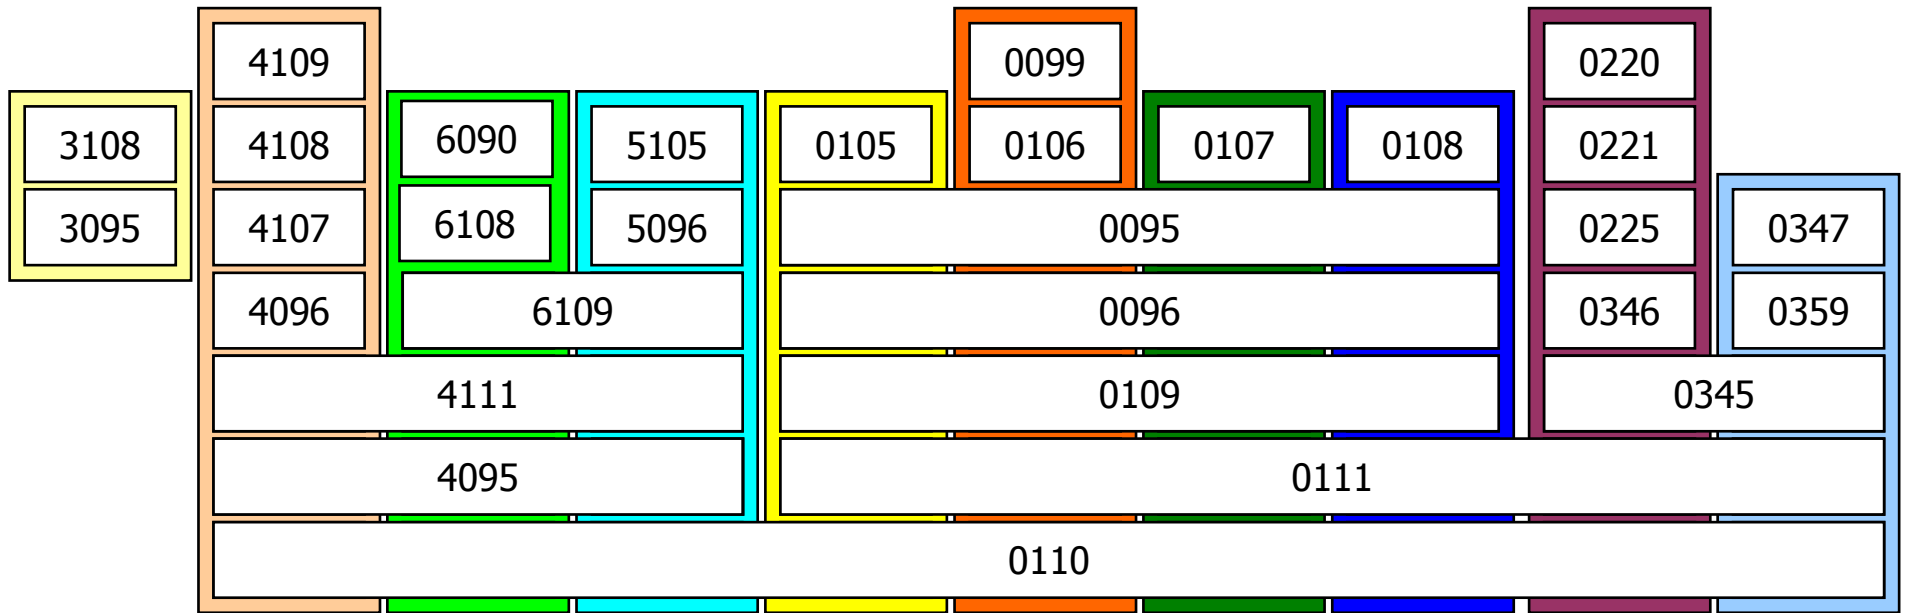

(Professional) knowledge	Intellectual and operational competences	
(Professional) skills		
Manner of thinking	Method competences	
Problem solving		
Working manner or style		
Communication	Interpersonal /social competences	
Cooperation		
Conflict handling		
Flexibility	Characteristics	
Creativity		
Autonomy		
Abilities /advantages		
Characteristics
